

New B-3 / C-3 The Legend is Back !

*and better
than ever!*

Enhanced features of the New B-3 mk2:

- New Sound Engine that more faithfully reproduces the natural purity of the Classic B-3 sound.
- A 12AU7 Vacuum tube is used in the Preamp Circuit and a 12AX7 for the Overdrive Circuit.
- The inclusion of Hammond's most authentic Digital Leslie simulator which can be used when an actual Leslie is not available.
- The Chorus/Vibrato division has been upgraded to closer model the electro-mechanical "scanner" found on the vintage B-3 organ.
