**FOR GUITAR**

Guitar Leslie Models G37 & G27

JIM PETERIK's (co-founder of the IDES OF MARCH / SURVIVOR) search for new guitar tones never ends. That's why, like the Beatles, Eric Clapton, Stevie Ray Vaughan, Pink Floyd, Peter Frampton; he has embraced the unique and unmistakable sound of a guitar played through a genuine LESLIE speaker. We are proud to announce the G37- the first Leslie equipped with an onboard guitar amp, and the G27 if you prefer to use your own amp. These Leslies are truly portable and truly affordable. Whether electric or acoustic, it's the ultimate accessory for your guitar rig!

## Specification for Leslie G37 and G27

Featuring Exclusive Pedal Speed Control Circuitry (Patent Pending)

Preliminary

Single-Channel Input	Features low and high gain input jacks.
Two-Speed Horn & Bass Rotor	Slow/fast speeds can be individually adjusted. Horn and bass rotor will automatically stop in the forward position when the stop mode is selected. This maximizes the sound towards the audience.
Amplifier (Leslie G37 only)	Vacuum tube preamp with a 100-Watt RMS solid-state power amplifier.
Amplifier Input (Leslie G27 only)	Leslie's speaker system is capable of handling an external amplifier up to 100 Watt RMS.
Speakers	12" vintage V30 speaker made with all original materials and a high-frequency horn driver.
Control Inputs	Channel Select foot switch, speed select foot switch (slow, fast, stop), variable speed control pedal (V-20RT)
Controls (Leslie G37 only)	Clean Volume, Ch Select
Controls (Leslie G27 & G37)	Overdrive: Gain, Volume, Contour Equalizer: Treble, Mid, Bass
Cabinet	Slow rotor speed: fast rotor speed, Power switch
Cabinet	Rugged-built, black painted cabinet is constructed of 3/4" MDF, with protective corners and two folding handles.
Power Supply	120V AC, 60Hz
Dimensions	29 1/4"(W) x 20 1/2"(D) x 26 3/4"(H)
Weight	Leslie G37: 85 lbs, Leslie G27: 82 lbs
Included Accessories	FS-10TL Dual foot switches, (16' cord included), enables the control of the speed of the rotors (slow, fast, stop).
Optional Accessories	V-20RT Speed control pedal, FS-1TL single foot switch used to remotely control Channel Select.
